

Give developers your **time**

Contributing code is nice, of course, but also...

*File issues with feature requests and bug reports

*Improve or translate messages and errors

*Fixtypo and add to the documentation

**Blog post about your use case*

Give developers your **time**

Contributing **code** is nice, of course, but **also...**

- * File issues with **feature requests** and **bug reports**
- * **Improve** or **translate** messages and errors
- * Fix **typos** and add to the **documentation**
- * **Blog** or **post** about your **use case**
